

Crane Training Schools Alberta

Crane Training Schools Alberta - We have designed various programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who needs certification or re-certification, and for inexperienced operator who is searching for a job in the industry. Positions for crane operators are in demand due to their high pay. Crane operators are among the highest paid of any heavy equipment operator.

Our Crane Operator training provides instruction for various mobile cranes. Course subject consists of Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts.

The program is best for crane operators, riggers and their supervisors. The materials incorporated in the course would include a manual and lots of useful handouts. The illustrated safety instruction manual features one hundred to two hundred fifty pages, which depends on the course, of important and useful material. Course materials include load exercises and load charts for the crane with which the individual training is working.

Over half of the course includes Hands-On Safety Training. Practical training is helpful for developing and increasing personnel skills levels. Only experienced journeyman crane instructors are selected to teach the courses. Our instructors possess many years of business experience.

Optional testing mechanisms are offered for all of our courses. Students will normally write tests both before and after training. A skills test is normally administered for programs that comprise H.O.S.T. People training would be tested and graded.

Certification Training Programs: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Rigging / Signalperson Certification and Training; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Certification & Testing.

Business standards of practice are evolving as new trade requirements emerge. There are continual updates to regulations and legislation. Improvements in technology and equipment continue to be made. Industry data analysis and collection detect trends which are changing. Members maintain the privilege of managing their training programs and certifications. Mobile device alerts keep members ahead of personal and workplace safety news.
