

## Forklift Operator Certification Alberta

Forklift Operator Certification Alberta - Forklift operator certification is usually required for employees working in construction, warehouse or industrial setting to guarantee the safe use of forklifts. Workplace training must follow a method of testing and education. There are two common methods to get forklift operator training and acquire certification. People can seek out training by themselves or through the company wherein the individual is employed.

Local safety organizations need the majority of companies that own and operate forklifts to make sure that all lift truck operators are certified. Businesses could face penalties and fines for failing to properly train all forklift operators.

Forklift training and certification which is offered by the employers is normally facilitated by an on-site manager. Courses will often consist of safety procedures, instruction on the forklift and its parts and the right operation of the forklift. Testing will be done to be able to assess knowledge. A test of performance takes place at the end of the program. If successful, the trainee will be given a certification card.

The alternative method to employer offered training is to enroll in a program at a forklift certification training school. These schools will provide instruction on several kinds of forklifts. Safety procedures are a major focus of the training. A written test and driving test will have to be successfully carried out before a lift truck certification card is issued. The lift truck certification designation can be transferred to work performed on a forklift with whoever employer, which makes it convenient for individuals looking for a job using forklifts.

If the forklift is operated improperly; the results may lead to injury to other employees, the worker, and to company property. Supervisors have to make sure that all relevant workers get certified so as to avoid workplace accidents. Forklift certification is normally valid for two or three years, after which re-certification is needed.
